

Hi! We are  
**PrimeModule**

# About us

We specialize in both web and mobile application design and development. We believe in modern technologies and innovation. That is why we are always one step ahead of industry bringing you the best quality and the newest solutions.

We understand business and care about your needs. We value people and product before the process and project.

# Location

We are based in Łódź, Poland with mobile offices in Wrocław and London

# Łódź

The third-largest city in Poland. Located in the central part of the country. It hosts three major state-owned universities, six higher education establishments. The city is well known for its postindustrial architecture and one of the best museum of modern art where you can find Andy Warhol art.

## OUR PORTFOLIO

CanIRank is a San Francisco based super-charged keyword difficulty and competitive analysis tool for the most productive SEOs, marketers, and agencies. CanIRank is a new kind of SEO software: where other tools simply provide data, we could use our ranking models to draw useful and actionable conclusions. Thus was born the world's first SEO Intelligence software, helping to give startups, ecommerce stores, bloggers, and SMEs a chance to compete against the mega-corporations who rank due to the size of their SEO budget rather than the quality of their content.

### USED TECHNOLOGIES:

# Rank Smarter

CanIRank is a super-charged keyword difficulty and SEO competitive analysis tool to find keywords you can rank for, links you can get, & on-page optimizations that will move the needle.

## Understand More

Get a complete picture of the competitive landscape in 60 seconds

## Deliver Results

Find out which changes will make the biggest impact

## Be the First to Know

Automate monitoring of rankings, algo changes, link opps, & competitors

**Try it for FREE**

No credit card required

Or learn how [CanIRank is different and what you can do with it.](#)

See how CanIRank's SEO software has helped businesses like yours achieve results like these:

▲ 500% more clicks  
Clicks up 500%, # of ranking keywords doubled...

▲ 300% more traffic  
Since joining CanIRank, search traffic is up 300%...

▲ 50+ Page 1 rankings  
Our small blog now outranks Amazon, eBay, and Walmart...

And we guarantee you'll see great results too.

Keywords ROI Automation Understanding Actions Learning Communication

## Keyword Research Customized for Your Website

Wouldn't it be helpful if you could know which keywords your competitors are targeting, which phrases Google considers related, and which terms offer the greatest potential specifically for your site? Oh yeah, and could we please sort those by search volume, ad value, and ranking difficulty? In seconds your **Keyword Research** is done, automatically, for every campaign you launch.

[Use Case: Automate your keyword research](#)

[Use Case: Niche site keyword selection](#)

Choose the Right Keyword Today,  
Rank #1 Tomorrow

CanIRank helps you find keywords where your site is already competitive, so you can achieve results quickly, with less cost and risk. Based on 2+ years of research, CanIRank's Ranking Probability is over twice as accurate as other Keyword Difficulty tools. CanIRank is the best SEO software for finding keywords and building backlinks for your website.
